Why use GCSEPod?

gcsepod®
Education on Demand

It's convenient and effective

GCSEPod podcasts are designed for mobile devices, so it's like carrying a huge pile of textbooks and revision guides around with you everywhere.

Have an expert read and explain everything for you clearly and precisely with all the right facts, quotes, keywords, dates and annotated diagrams on screen.

You won't need to use it for long before you feel the impact. Consistent use in just 10 minute chunks is proven to support achievement right up to A*.

It will help you get organised

Create personal podcast playlists to listen to in the run-up to a test or to help with homework.

Use the viewing history feature to return to podcasts you found useful or access your favourite playlist to go over topic areas you find difficult.

Download exam specific playlists, with everything you need to know for that exam all organised for you.
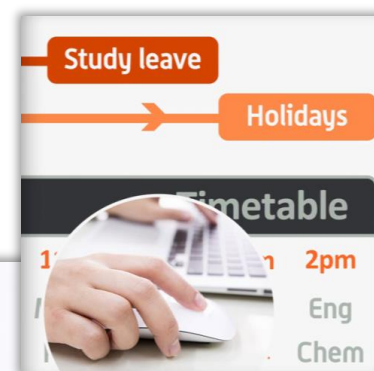

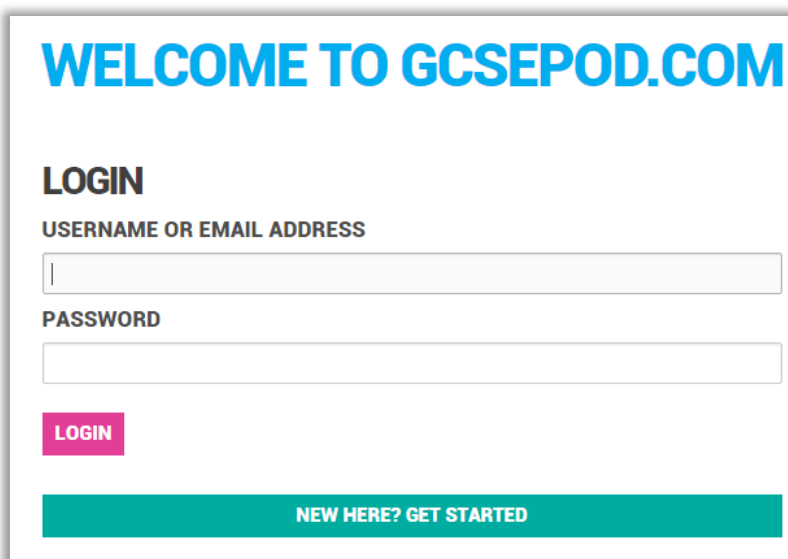

It can be as discreet (or loud) as you

Listen to GCSEPod podcasts anywhere with nobody knowing what you are doing. Listen privately on the school bus, when you're walking the dog or shopping in town.

If you want to show off just how much work you've been doing or even recommend a podcast to a friend you can use the social networking links on the site to connect with others.

Getting Started

Activating your account

When your school has informed you that you have been registered with GCSEPod, you need to confirm some personal details so that you can access the site:

1) **Go to www.gcsepod.com and click "login".**

2) **Click NEW HERE? GET STARTED. Select Pupil.**

WELCOME TO GCSEPOD.COM
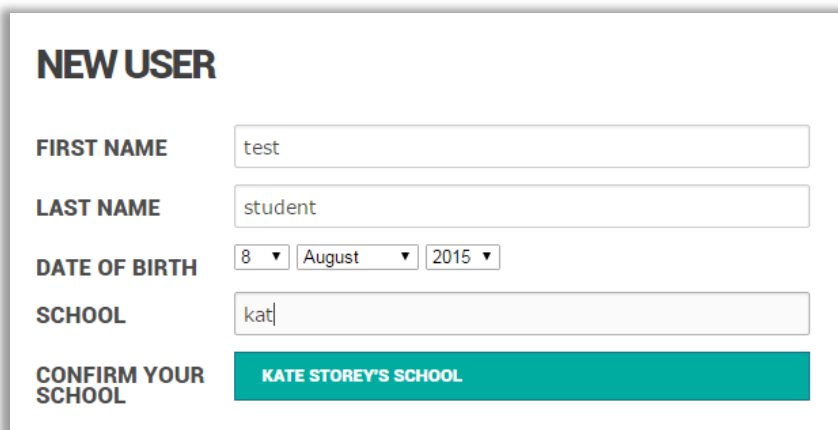

LOGIN

USERNAME OR EMAIL ADDRESS

PASSWORD

LOGIN

NEW HERE? GET STARTED

PLEASE FOLLOW THE LINK FOR YOUR ACCOUNT TYPE BELOW:

PUPIL   **TEACHER**

NEW USER

FIRST NAME	test
LAST NAME	student
DATE OF BIRTH	8 ▼ August ▼ 2015 ▼
SCHOOL	kat
CONFIRM YOUR SCHOOL	**KATE STOREY'S SCHOOL**

3) **Enter your name, date of birth and type in the name of your school.** Your school should appear in a dropdown list. Click on your school in this list to confirm it.∗

∗If you're having trouble finding your school, double check that you've entered your correct date of birth and your full name as it appears on your school register. Some schools are known by a shorter version of their name, but make sure you're typing the full, official school name.

Getting Started

4) **Select a username, password, and a password hint to help you remember your password.**

Username	Choose a username
	TIP - Don't just write your name as your username. Think of a username that is unique to you and that you can easily remember.
Password	Choose a password
Confirm Password	Retype your password
Password Hint	A password hint, in case you forget

5) **Select the subjects you study.**

Please set your subjects below. You can manage these in your account settings.

My Courses
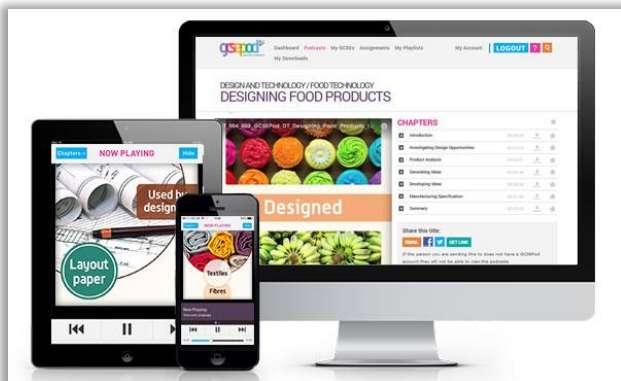

My Courses

The 'My Courses' area on the site is where you can view a list of upcoming examinations and find out which podcasts are relevant to those exams. These podcasts are all organised into playlists.

You can then watch the podcast playlist to help you revise for the exam or download the individual podcasts to your mobile and do some quick revision when you're on the school bus or out and about.

Note: the playlists may not contain information about all the topics you need to revise for the exam. Please ask your teacher if you are unsure.

Searching for your exams

Click **My Courses** on your dashboard. Here you can view upcoming exams by subject area.

Assignments

gcsepod®
Education on Demand

What is an assignment?

An assignment is a piece of work that your teacher has set for you to complete on the GCSEPod website.

Your teacher may create an assignment which will include a playlist of podcasts for you to watch and some questions for you to answer.

The questions your teacher sets for you may be multiple choice, in which case they will be marked immediately, or free text, in which case you will need to wait for your teacher to mark them before you can see what you got right and wrong.

Once marked, you can view your results and comments from your teacher on the GCSEPod website.

Finding your assignments

Log into your GCSEPod account.

In the middle of the dashboard is a summary of all your assignments.

Education on Demand

What is a Playlist?

A playlist is a group of podcasts that have been saved together, just like you may create a music playlist on your smartphone.

You can quickly and easily create a playlist to download to your mobile phone or computer or save to watch online later.

Your playlists

Playlists you've created

Click **My playlists**
Here you will find all your playlists that have been created.

Click **create a playlist** to create new playlist

You will also see a favourites playlist which you can add to when listening to a podcast by clicking the star beside the chapter name.

PLAYLISTS

CREATE A PLAYLIST

Here you can select podcast chapters across topics or even subjects and create your own personalised playlists. Try creating a playlist of topics you find tricky and listen to it as you travel to school

Downloading to Apple Devices

Downloading to Apple devices

There are two ways to download GCSEPod podcasts to an Apple device:

1) Download the GCSEPod App from the AppStore. This allows you to select a podcast and click **save podcast for offline listening** which enables you to download the podcast onto your device.

2) Download the podcasts to iTunes on your computer first and then sync iTunes with your device. This is particularly useful if you do not have access to the app or if you do not have an internet-enabled Apple device (for example an iPod Nano). Follow the steps below to get started.

Download via computer & sync

Choose chapters you wish to download and click the **download** icon to the right of the chapters.

The download icon looks like this:

Choose the **Add This to My Downloads** button to download the entire title.
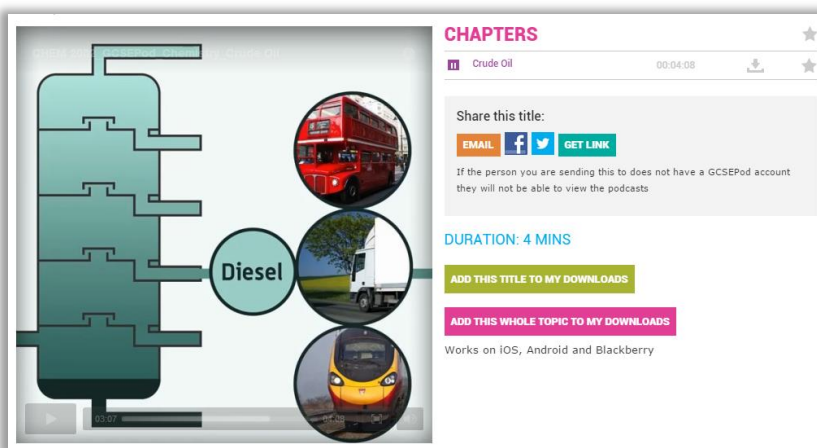

Downloading Immediately
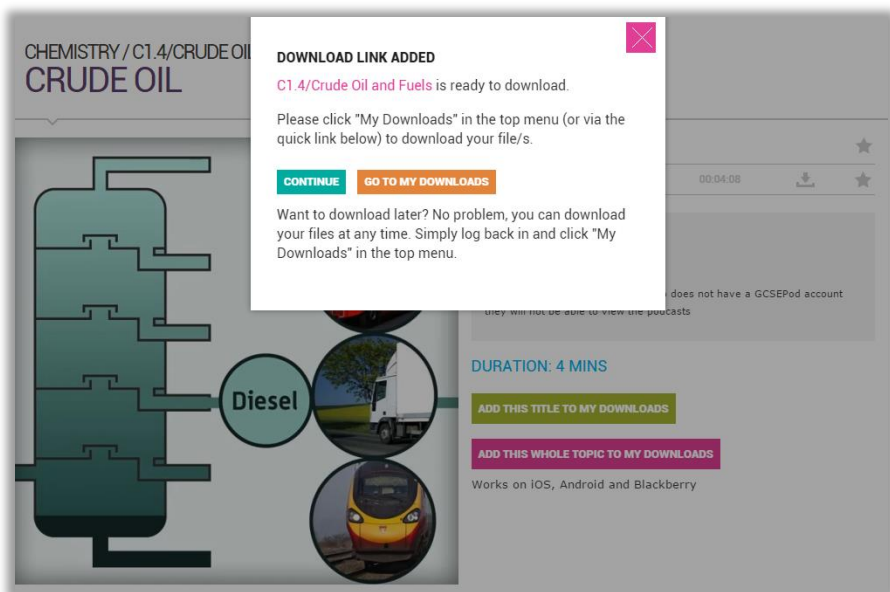

This will place your chosen podcasts in your **My downloads** section.

Downloading to Apple Devices

Adding to your Apple device for Mac users

Once the podcast has finished downloading, go to the Finder and view Downloads.
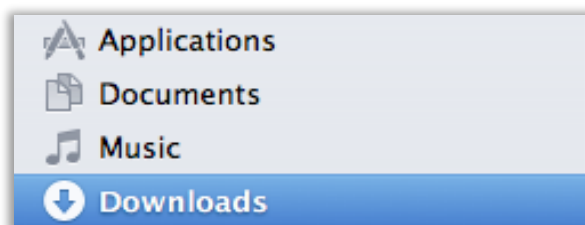

Click on the podcasts and they will automatically save into the Films section of iTunes.

From there, sync your mobile device through iTunes.

IMPORTANT - you'll now find the GCSEPod podcasts in Videos on your device. For iOS7 devices go to Videos and then Home Videos.
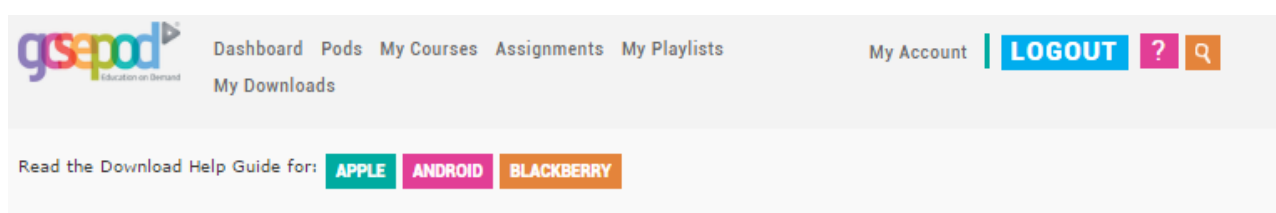

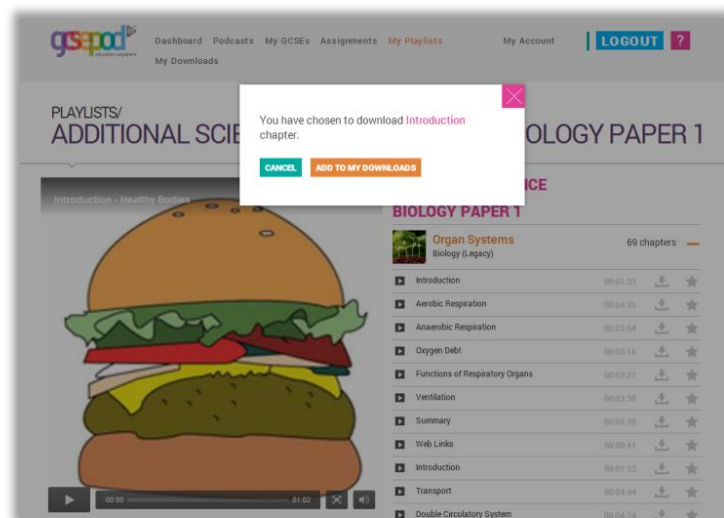

Adding to your Apple device for PC users

Find your podcast on your PC. If your browser downloaded it without asking for a location, it will likely be in your 'downloads' folder – otherwise it will be in the location you saved it at.

Right-click on the podcast and press 'copy.'
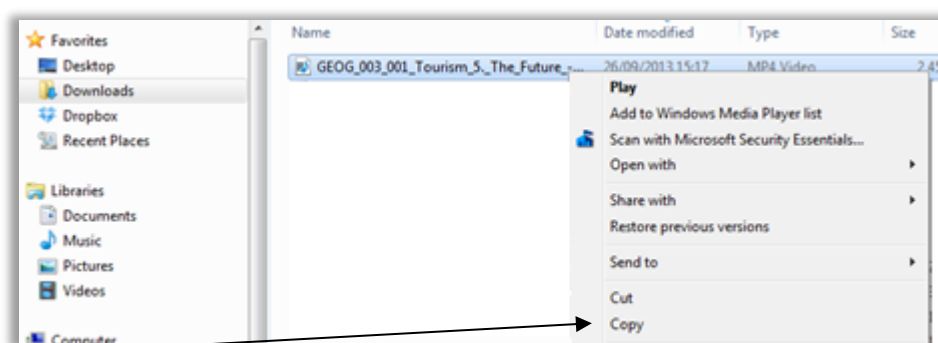

Copy the podcast to **My Documents\Music\iTunes\iTunes Media (or iTunes Music)\Automatically Add to iTunes.** Right click on the folder and press 'paste'

Connect your device to your computer with the supplied USB cable and open iTunes. Click on your named device from the list on the left then click the 'Films' tab.

Ensure the podcasts are ticked to be included when the device is synced. Click 'apply' at the bottom right of your screen. Once your device has finished syncing you can disconnect it from your computer.

IMPORTANT - you'll now find the GCSEPod podcasts in "Videos" on your device. For iOS7 devices go to "Videos" and then "Home Videos".

Downloading to Apple Devices
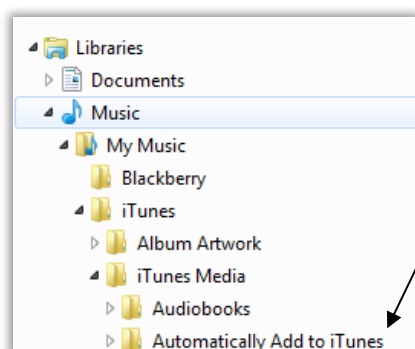

Downloading from the My Downloads section

If you want to download podcasts you've placed in the My Downloads section, press My Downloads at the top of the screen.

From there, you can choose to download the podcasts by pressing the download button to the right of the chapter name.

You can choose to download in either standard or high definition. We recommend high definition for use on iPad, iPad Mini, iPhones 4/4S/5/5c/5s/6, and iPod Touch 4th Gen onwards.

Let's keep in touch!

Telephone: **0330 111 5559**
Email: **support@gcsepod.com**

Download direct to your device

There are two ways to download a GCSEPod podcast to an Android or BlackBerry device.

1) Open the GCSEPod website on your device and download the podcasts directly.

2) Download the podcasts to your computer first and then connect your device to your computer and copy the podcasts to your device.

Instructions for both options can be found below.

Downloading direct to your device

Go to www.gcsepod.com on your device's browser and log in.

Choose the chapter you wish to download and click the Download icon to the right of the chapter's name.

The download icon looks like this:
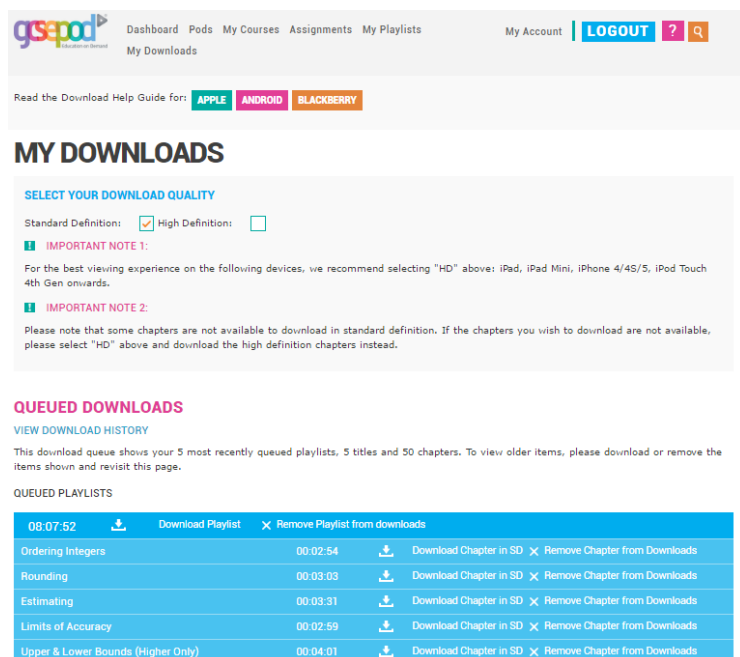

Once you've pressed the download icon, click add to My Downloads.

The podcast will automatically download to your phone. Choose the video application on your phone to open it.

Downloading via a computer

The download process is exactly the same on your computer. Click the download icon of the chapter you want, then choose add to My Downloads.

Click My Downloads on your dashboard and click the download icon again.

You can then download the chapters by clicking this Icon.

Move the file from your computer to your device

Connect your device to your computer via the supplied USB cable. If you're using a BlackBerry, it may ask you if you want to turn on mass storage mode. Click **Yes**.

If you're using an Android device, you may be prompted to choose which type of connection you wish to make. Choose the **mounted** connection type.
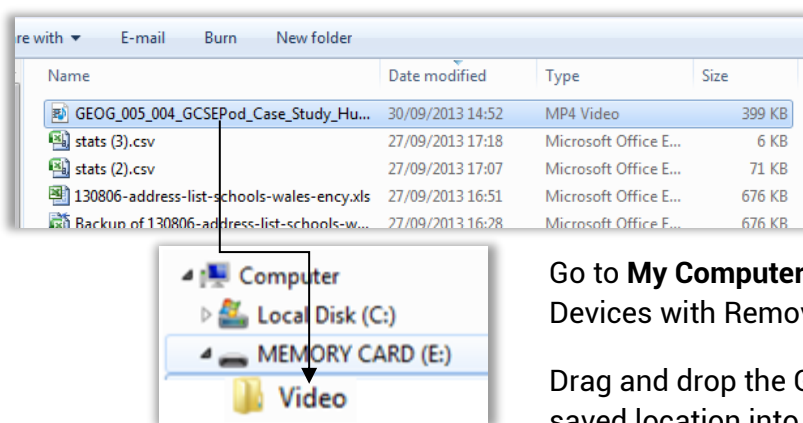

Go to **My Computer** and look for your device, possibly in the Devices with Removable Storage section under Removable Disk.

Drag and drop the GCSEPod file that you downloaded from its saved location into the Videos folder in your device. For Android users, this is often the DCIM folder.

Disconnect your device safely from your computer and then watch the podcast in the Videos section of your device.
